

A green emergency exit sign with a white silhouette of a person running. The sign is slightly tilted and has a dark border.

Emergency Lighting Modular Course - Unit 2 Design & Maintenance

Having previously completed the fundamental module, delegates will use the knowledge and understanding gained to carry out compliant designs, testing and maintenance for emergency lighting systems to BS 5266/EN 1838/BS EN 50172 requirements.

WHO SHOULD ATTEND?

This course is aimed at contractors and individuals looking to gain an understanding of emergency lighting system design, test and maintenance to all relevant documents that are applicable to BS 5266/ EN 1838/BS EN 50172.

Delegates should have attended the fundamental course.

WORK AREAS

Commercial, domestic and industrial

LEARNING OUTCOMES

The course will provide delegates with an understanding of how to gain the relevant information in order to design emergency lighting systems to customer requirements and carry out maintenance in compliance with BS 5266/EN 1838 / BS EN 50172, including verification of existing systems. Delegates will also gain an understanding of how complete the appropriate certification.

BENEFITS

Successful delegates completing this course will gain valuable knowledge in the design of emergency lighting systems, testing and maintenance requirements to BS 5266/ EN 1838 / BS EN 50172 and if successful will result in a CPD accredited certificate.

COURSE OUTLINE

- Review of Fundamental module
- Further focus on the design on an emergency lighting system
- Lighting levels and spacings
- Practical exercise in testing an emergency lighting system
- Maintenance requirements
- Routine testing
- Verification of existing systems
- Completion of documentation

ASSESSMENT BODY

WHAT DO I NEED TO HAVE WITH ME?

Note-taking material, highlighter pen and scale rule. **Recording devices not allowed.**
Lunch and refreshments provided (classroom courses only)

NEXT STEPS

Successful delegates might also be interested in completing the commissioning module or the six fire detection and fire alarm courses on offer.

WHY TRAIN WITH US?

We provide:

- Training delivered by subject matter experts
- High quality training resources
- Confidence that your training comes from a business with a wealth of industry and technical experience built up over 60 years
- Support at all points during your course to ensure confirmation of understanding

Are you interested in taking this course or any other courses? Why not contact our friendly Training team and ask for more details?
