

EMERGENCY LIGHTING MODULAR COURSE UNIT 1 FUNDAMENTALS

This course provides the basic required knowledge to understand the requirements for different types of systems, functions and locations of luminaires for compliance to BS5266/EN1838/BSEN50172.

WHO SHOULD ATTEND

This course is aimed at contractors and individuals looking to gain an understanding of emergency lighting systems, both legislation and basic design requirements.

ENTRY REQUIREMENTS

There are no formal entry requirements to attend the course, however it is ideally suited to practicing electricians or individuals who wish to proceed to the design and/or maintenance module.

LEARNING OUTCOMES

The course will provide candidates with an understanding of emergency lighting system compliance with BS5266/EN1838/BSEN50172, plus the relevant legislation required. Candidates will gain an understanding of system types, the different functions of emergency lighting, product compliance and locations of luminaires.

WORK AREAS

Commercial, domestic and industrial.

BENEFITS

Successful candidates completing this course will gain valuable knowledge in emergency lighting, emergency safety lighting and emergency escape lighting systems to meet with the requirements of BS5266/EN1838/BSEN50172.

Completion of this module will allow the delegates to proceed to the design/and or maintenance module – both of which, if successful, result in a CPD accredited certificate.

DURATION

1 Day

ASSESSMENT BODY

COURSE OUTLINE

- Understanding legal requirements for emergency lighting systems
- Understanding products in the marketplace
- Understanding Emergency lighting systems
- Requirements of BS5266/EN1838/BS EN50172
- Siting of equipment
- Emergency lighting levels
- Review of certificates

WHAT DO I NEED TO BRING WITH ME?

Note-taking material and high-lighter pen.
Recording devices are not allowed.

NEXT STEPS

Successful candidates might also be interested in completing the design and/or maintenance modules and fire detection and fire alarm courses on offer.

WHY TRAIN WITH US?

We provide:

- Highly-skilled, qualified lecturers
- Purpose-built training facilities
- Q & A at the end of the course for clarification of any queries
- One-stop-shop for NICEIC enquiries
- Lunch and refreshments provided

CPD ACCREDITATION

Our Fire Alarm Courses are now CPD Accredited.

Why does CPD matter?

- Continuing Professional Development is essential in helping individuals, organisations or entire industries to keep skills and knowledge up to date.
- Providing CPD enables organisations to become a knowledge bank to key stakeholders of your organisation.
- CPD accredited training courses, workshops and events allow professionals to use the learning time towards individual CPD requirements.

Are you interested in taking this course or any other courses? Why not contact our friendly Training team and ask for more details?
