Electric Vehicle Charging Installation Awareness

This course will cover the requirements of BS 7671 with particular focus on Section 722 'Electric Vehicle Charging Installations' and the IET Code of Practice for Electric Vehicle Charging Equipment Installation. An overview and signposting to the latest government grants and funding strategies will also be provided.

Course duration 1 day

Who should attend?

This course is aimed at electricians and electrical contracting businesses who are looking to understand the specific requirements relating to Section 722 of BS 7671. Whilst elements from across BS 7671 are included in this course, it is expected that those attending have a sound understanding of the wider requirements relating to the latest edition which includes knowledge of circuit design, inspection, testing and certification.

Learning outcomes

Successful delegates will gain fundamental knowledge of the supply, installation, and protection requirements of electric vehicle charging points (EVCP).

Course outline

This course will cover:

- Modes of charging and connection
- Pre-installation considerations and surveying
- Meeting the requirements of BS 7671 (Section 722)
- Awareness of IET Code of Practice for Electric Vehicle Charging Equipment Installation
- Commissioning and notification process

What do I need to have with me?

- A copy of BS 7671 (latest edition)
- IET Code of Practice for Electric Vehicle Charging Equipment Installation (latest edition)

Next steps

Level 3 Award in the Installation of Small-Scale Solar Photovoltaic (PV) Systems
Level 3 Award in the Design, Installation and Commissioning of Electrical Energy Storage Systems (EESS)

Why train with us?

- We've been training the profession for over 20 years
- Delivered by real-world experts
- Flexible courses, tailored to suit you
- 60 + courses to choose from
- Online, in person, at your premises or at ours
