

FIRE DETECTION & FIRE ALARM SYSTEMS BS 5839-6 MODULAR COURSE UNIT 6 DOMESTIC

This modular course provides the basic knowledge and understanding of fire detection and fire alarm systems for BS 5839-6:2019.

WHO SHOULD ATTEND

This course is aimed at contractors and individuals looking to gain an understanding of the requirements of BS 5839-6:2019 as a stand alone course to the BS 5839-1 modular courses.

ENTRY REQUIREMENTS

There are no formal entry requirements to attend the course, however it is ideally suited to practicing electricians or individuals who wish to ensure competent personnel are completing the works correctly, such as risk assessors, site agents or landlords.

LEARNING OUTCOMES

The course will provide a general understanding of how to ensure fire alarm systems comply with BS 5839-6:2019. Candidates will gain an understanding of design, installation, servicing and commissioning activities and will also be shown how to complete the relevant certificates.

WORK AREAS

Domestic Properties, Houses of Multiple Occupation, Flats and Maisonettes with shared communal spaces.

BENEFITS

Successful candidates completing this course will gain valuable knowledge in understanding the requirements for the fire detection and fire alarm systems to meet with the requirements of BS 5839-6:2019.

DURATION

1 Day
