

FIRE DETECTION & FIRE ALARM SYSTEMS BS 5839-1 MODULAR COURSE UNIT 4 COMMISSIONING

Who should attend?

Candidates should be familiar with the operation of Fire Alarm systems. Suitable candidates should already work within the electrical or fire alarm industry and have a basic understanding of the requirements of fire alarms in the UK.

What will I learn?

The learner will obtain an understanding of the commissioning process, for non domestic premises, of fire detection and fire alarms systems to section 5 of BS 5839-1:2013.

Benefits

Building on the knowledge gained from unit 1 learners will gain sufficient knowledge to have greater understanding of how to commission fire detection and fire alarm systems to BS 5839-1:2013 by using design criteria, drawings and culminating in the production of a commissioning certificating.

Pre-requisites

Fire Detection & Fire Alarm Systems BS 5839-1 Modular course Unit 1 Fundamentals

COURSE PROGRAMME

- Understand the requirements of commissioning
- Understand the documents required for handover
- Commission and test a fire alarm system
- Understand commissioning requirements
- Complete a commissioning certificate

Assessment body:

NICEIC

What do I need to bring with me?

Note-taking material (recording devices not allowed)

Next steps:

Once you have completed this course we recommend you consider the following:
Fire Detection & Fire Alarm Systems BS5839-1 Modular Course Unit 5 – Maintenance.

Why train with us?

We provide:

- Highly-skilled, qualified lecturers
- Purpose-built training facilities
- One-stop-shop for NICEIC enquiries
- Lunch and refreshments provided
