

HOME TECHNOLOGY INSTALLER COURSE

WHO SHOULD ATTEND

This course is suitable for those working in the electro-technical industry and who are looking to have a structured approach to integrating 'home technology' into existing contracts.

ENTRY REQUIREMENTS

There are no formal entry requirements to attend this course however candidates should have a basic knowledge and understanding of electrical science and the principles of electrical installation work. Although not specifically required for attendance, a sound working knowledge of BS7671 would also be beneficial.

BENEFITS

Delegates will gain methods of creating a structured approach to work in the 'HTI' sector. With careful planning, good communication and accurate documentation, costly mistakes and other pitfalls can be avoided.

WHY TRAIN WITH US?

We provide:

- Highly-skilled, qualified lecturers
- Purpose-built training facilities
- One-stop-shop for NICEIC enquiries
- Lunch and refreshments provided

LEARNING OUTCOMES

Delegates attending this training will:

- Gain an understanding of the domestic home technology marketplace and the opportunities available to the Home Technology Installer.
- Be given an overview of the fundamental step to be taken for effective 'HTI' planning to meet the needs of the customer.

COURSE OUTLINE

- Overview of sector
- Terminology – a different way of thinking
- Wired Vs. wireless systems
- Standalone Vs. integrated systems
- What does the customer 'actually' want?
- Creation of 'needs analysis' to capture the customer brief
- Overview of 'functional analysis' stage
- Structuring the customer handover pack

DURATION

1 Day
